RIGTOOLS Shaker Screen Trolley

When used together with the MONSOON Shaker Screen Washer, the RIGTOOLS Shaker Screen Trolley provides a safe, easy, and ergonomic solution for transporting dirty shaker screens from the shaker to the MONSOON and returning cleaned screens to the shaker screen racks.

Old Way

- Personnel manually carry shaker screens to the cleaning area.
- Personnel are exposed to drilling mud during transport of the screens.
- Personnel repeatedly lift and carry shaker screens up to 20 kg, increasing the risk of back injuries.

RIGTOOLS Way

- Easy and ergonomic handling and transport of shaker screens from the shaker to MONSOON and from the MONSOON to racks.
- The trolley is custom-made to carry any type of shaker screen.
- The RIGTOOLS Shaker Screen Trolley has a built-in spill tray that captures mud spills during transport, keeping the shaker room floor clean and safe.
